

AN ARENA FOR COLLABORATION

Colosseum is a modular furniture system able to accommodate larger groups in a more private setting. Designed as an arena for collaboration and learning, it can be organised around a focal point, such as a screen, table or presenter.

GENEROUS & FLEXIBLE

Colosseum is perfect for larger scale collaborations: one setting can be designed to seat up to 18 people for presentations, group social gatherings or semi-private meetings.

The flexible system allows users to move modular pieces into a variety of configurations with relative ease.

ADDITIONS & FEATURES

Comfortable, ergonomic seating. Standing/seated work tables can be added to the exterior for more space. The wall sections have provisions within the frame to mount any combination of tables or seats on either side.

SPECIFICATIONS

- High-quality materials and premium upholstery for long-lasting durability.
- Sturdy frame design and commercial-grade foam
- Power/Data integration available. Pixel power units available on table tops and seat bases.
- Connectors allow units to be locked together in various configurations.
- Standard leaner tables available in Melteca (LPL) with edgebanding. Also available in Plytech Futura (European Birch HPL), or Plytech Spectrum Eco (Finnish Birch HPL) - prices may vary, please enquire.
