Quadra

Worksystem

Simply effective.

To be focused is to be effective. Quadra's crisp refined aesthetic gives your office a clear uncluttered ambience.

Quadra forms the foundation for a culture of progress and vibrancy. The discreet cable management controls and conceals unsightly wires and cables. Screen heights are made to suit privacy and acoustic requirements. Accessory bars allow immediate at-hand location for paper trays and filing.

Quadra maximises space efficiency, accommodating more people comfortably than ever before, while still adapting easily to the businesses workflow patterns and team requirements.

Simply adaptable.

Business needs to adapt or be left behind.

The market changes, the business changes, the people change. Individuals are different and need different solutions. Workplace design is all about people. Quadra helps your business to develop and evolve by providing optimal workspace layouts and a stimulating environment where people give their best.

Quadra components are modular and designed to be easily configurable and re-configurable to suit the needs of the expanding and evolving office, using the same components for different layouts to suit the people and the workflow.

- In-line bench desking for space-saving effectiveness and responsive communication.
- 120 degree pods for effective team collaboration and interaction.
- 90 degree pods for increased work surface and dedicated workspace.

Simply inspiring.

Quadra challenges you to think differently, to allow the business to be proactive and move responsively. The open layout encourages the flow of new ideas through communication and cooperation.

Quadra's flexibility lets you enjoy design freedom, mix and match layouts and colours to transform your ordinary office into an exciting and vibrant workplace. Quadra is the ideal way of cultivating the power of the team, encouraging stimulation and innovation.
