

RELIEF

Crestline[®]

Flexibility and style.

Designer: Favaretto&Partners

Relief is designed to blur the line between spaces, to cross boundaries.

A contemporary chair family that offers flexibility with cohesion and style.

Relief's moulded seat shell is formed of a robust polypropylene and glass-fibre mix for optimum resilience and strength.

The surface features a lightly textured anti-scratch finish. It's simple shaping is designed with the absence of corners or notches to facilitate cleaning.

The uncomplicated rounded styling is discreetly generous. The backrest is broad and supportive, and the seat support shaping subtle and unobtrusive.

OTHER

Creating spaces where people look forward to Monday mornings.

The relationships people have with the office are fundamentally changing. How, where and when people work is no longer uniform. Nor are our solutions. We create engaging spaces, so that people look forward to coming to work on Monday mornings.

For over 30 years Crestline has been helping design office spaces for companies who want more. More options, more flexibility, more design. Over the next 30 years we want to see NZ furniture design celebrated on the world stage, ethically, sustainably and joyfully.

Crestline; look forward to Monday mornings.
