

ARUM is an iconic armchair designed for transversal use in a wide variety of contexts. A unique armchair that stands out for its elegant curves, lightness, and comfort. The wraparound backrest is smooth, fluid, and ergonomic to the touch, while the seat is shaped as smooth as a river stone. The structure is in steel and the seat and back are in polypropylene. ARUM armchairs are available in a wide selection of colours that allow wide customization possibilities and facilitate their integration into various environments and spaces.

SEATS & BACKREST

Composition: Polypropylene.

Finishes: Available in 14 selected colours with a non-slip matte texture on both sides.

UPHOLSTERED SEATS

Inner seat in polypropylene reinforced with fiberglass. Upholstered with variable density high resilience CMHR flexible polyurethane foams.

Upholstery: The upholstery is available in all fabrics and leathers from the INCLASS sample book and optionally with fabrics supplied or specified by the customer.

STRUCTURES

Four-legged Armchair:

The structure is made of 16mm 2mm thick round steel tube.

Finishes: with heat-hardened polyester paint in all the colours of the INCLASS metallic finish chart or in chrome.

Feet: Includes standard plastic tips in contact with the ground. Optionally, they can have studs with a felt surface indicated for hard and delicate surfaces.

Stackability: This version is stackable.

CERTIFICATES AND REGULATIONS

European Standard UNE EN 16139-2 and ANSI BIFMA X5.4

INCLASS has its quality management certified in accordance with the ISO 9001 standard in all the design, manufacturing, and marketing processes of its products.

INCLASS's production processes are certified according to ISO 14001 environmental regulations and are carried out seeking to reduce waste and energy consumption to minimize environmental impact.
