

HUSH

Crestline[®]

Introducing Hush work booths.

Problems focusing in a loud office? No longer!

We need to talk, listen and understand effectively to be able to focus in our work. For both collaboration and individual work requiring high focus, Hush acoustic workplace solutions offer you the right amount of 'quiet' to help you achieve success in open plan offices.

Hush Acoustic Workplace Solutions are:

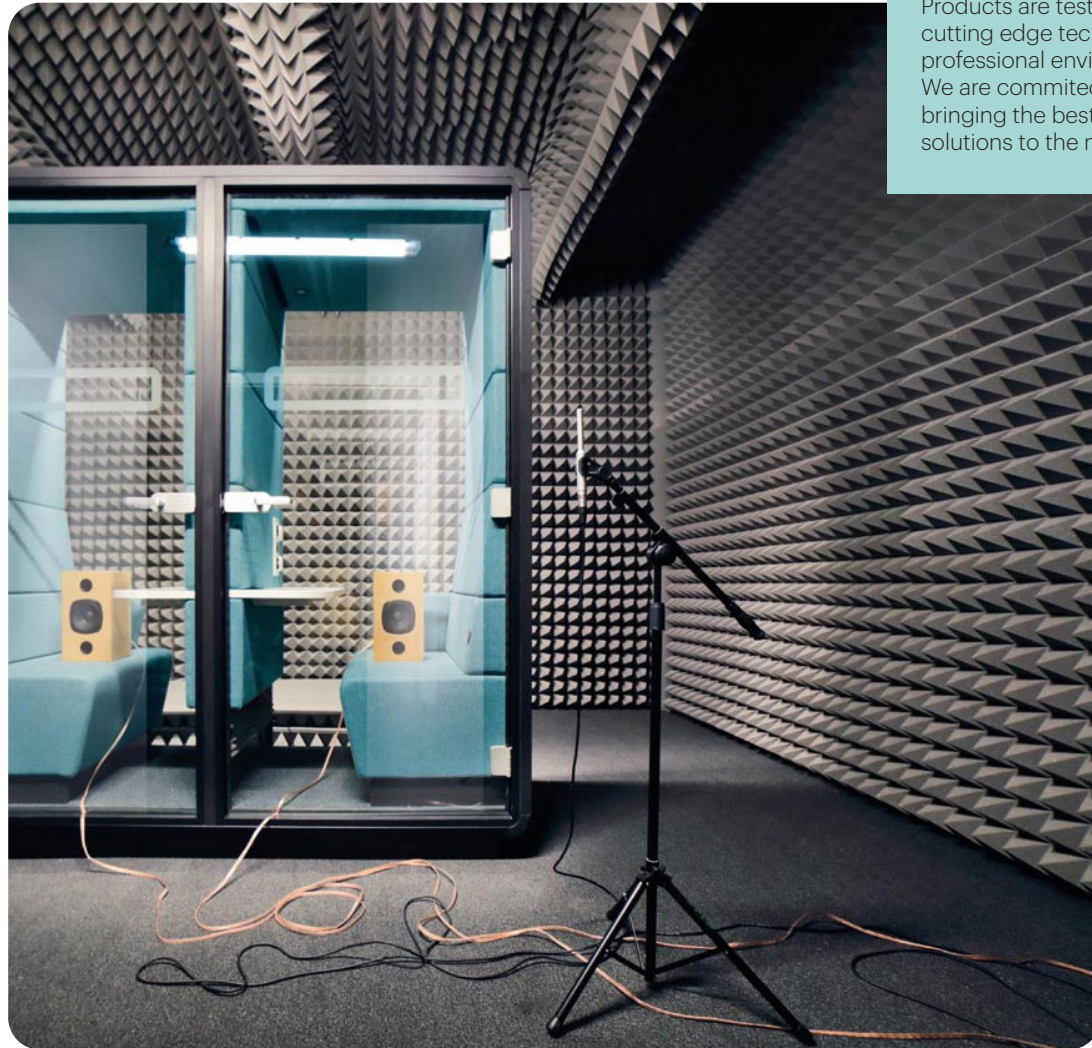

- **Built to last** - superior build quality to make your investment go the extra mile
- **Flexible** - pods are movable and can be easily repositioned without being disassembled
- **Affordable** - no need to build walls or meeting rooms, saving you from lengthy and expensive building consent processes
- **Customisable** - full range of sizes for continuity across your office fit-out, with 35 colours of wool fabric to choose from
- **Comfortable** - Balanced acoustics (not absolute silence), air reticulation system and moulded sofa seating for the ultimate user comfort
- **Safe** - toughened glass with acoustic film, anti-collision frosting, plus flame retardant foams and fabrics for improved safety
- **Secure** - optional electronic door lock keeps pod secure while not in use and can be unlocked easily with a smartphone
- **Healthy & clean** - healthcare-grade fabric inhibits odour and stain causing bacteria

Acoustic Info

TEST. IMPROVE.
REPEAT.

Products are tested with cutting edge technologies in professional environments. We are committed to bringing the best possible solutions to the market.

Silence done right.

Our goal is not absolute silence because total silence is unnatural and unhealthy. Instead, Hush provides an ideal acoustic environment for users, as it contains their noise, so colleagues outside aren't disrupted either.

UNHEALTHY SILENCE

Total silence isn't the goal; we are evolutionarily adapted to sound. We hear it even when we dream – it is a central aspect of our lives.

QUIET OFFICE

The sound that's made in Hush stays in Hush. Because of this, each pod makes the office quieter.

SAFETY ISSUES

A user can hear the office's fire alarm from inside their Hush, even when they are talking loudly on the phone.

Ideal Acoustics

Through the finer details

Noise insulation solutions

Sound is like water. It wants to flow. Hush pods are built to absorb, block, and cover this flow, preventing it from seeping in, in an undesirable way. How? Through the finer details.

1

ACOUSTIC LINED FABRIC PANELS

A variety of materials make Hush's interior walls. These materials provide complementing acoustic properties.

2

ACOUSTIC GLASS

Thick, 10mm laminated glass achieves excellent sound insulation.

3

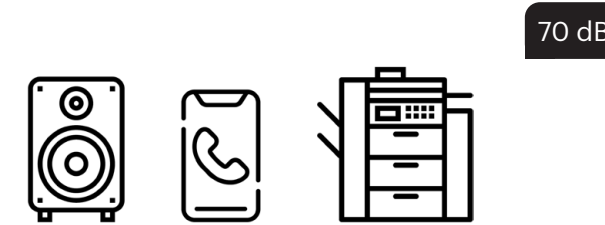

ACOUSTIC GASKETS

A high-quality and finely-engineered system of gaskets completes Hush's soundproofing.

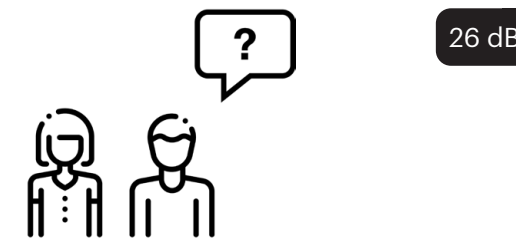

What is Hush like in real life?

Acoustics is a difficult topic to understand. To make it easier, let's use examples.

Open office noise is the volume of a blaring TV (~70 dB). HushPhone takes this noise and converts it into 36 dB: a decibel level as peaceful as the sound of singing birds.

Inside Hush, every conversation is converted to the volume of a whisper, and can barely be heard from outside.

ABOUT 8 TIMES MORE QUIET INSIDE THE HUSH

Hush Phone

- Private video conferences
- Trade negotiations
- Private phone conversations
- Optional floor-mounted stool

Providing special zones for phone calls and videoconferences has become one of the crucial elements of an office that is friendly and open to the needs of employees. The best solutions should be flexible and inexpensive to implement, and this is exactly what Hush provides.

Hush Hybrid

- Private video conferences
- Work requiring concentration on private calls
- Built-in seating and table

HushHybrid was designed to meet the current expectations of effective work models. It is a mobile solution with built-in soft seating and provides a comfortable space for solo work, especially video conferences.

The interior boasts side-screen LED facial lighting and can be extended [by place for all-in-one computer]. The interior table can also be extended towards the user to create their own comfortable work space.

Hush Work

- Work requiring concentration
- Video conference
- Fixed table or sit/stand version

Hush Work is a new approach to individual work. It's a solution that allows you to create a dedicated space in which you can focus. Advanced acoustic solutions ensure high comfort for the user while increasing the feeling of privacy.

Hush Twin

- Private video conferences
- Trade negotiations
- Private phone conversations

Two independent spaces enclosed in one pod. HushTwin is made by two conjoined pods, each with their own sofa, desk, lighting, and ventilation. It's larger than hush Phone but smaller than hushWork; both 'halves' provide the essential amount of space to work — no more, no less. For teams who need multiple private work areas in their small office, Hush Twin delivers in its efficient use of space.

Hush Meet

- Private meetings
- Group video conference
- can fit up to 4 people

Hush Meet is an additional, independent space for your office. It allows you to conduct meetings for up to four people in a comfortable and secure environment with advanced acoustic solutions. Additionally, the closed space provides a feeling of privacy which ensures that everyone within the Hush Meet can feel at ease. The pod is an excellent alternative to small conference rooms and can be placed wherever you want!

Hush Meet L

- Work requiring concentration
- Video conference
- Fixed table or sit/stand version

Hush Work is a new approach to individual work. It's a solution that allows you to create a dedicated space in which you can focus. Advanced acoustic solutions ensure high comfort for the user while increasing the feeling of privacy.

Hush Access.L

- Private meetings
- Formal meetings
- Work requiring concentration
- Group video conferences

HushAccess.L is a large, freestanding acoustic pod for groups to collaborate, and fits in your space without modifying your floorplate. Enhanced with a low floor threshold and wide entranceway, it allows access for everybody, including any assistive or adaptive equipment. Acoustic properties provide speech level reduction to ensure the privacy of conversations inside and minimize noise from outside.

Hush Greenwall

Let your office take a breath. Improve air quality; improve workplace experience. Our fully equipped Green Wall system allows you to cover the exterior panels on each Hush pod with plants. The system comes with a frame, integrated flower pots, and electronic irrigation. The lushness of its growth taps into the benefits of biophilia. It's the beautiful, easy, and obvious way to bring nature within reach.

Workspaces so good you'll look forward to Monday mornings.

The relationships people have with the office are fundamentally changing. How, where and when people work is no longer uniform. Nor are our solutions. We create engaging spaces, so that people look forward to coming to work on Monday mornings.

For over 30 years Crestline has been helping design office spaces for companies who want more. More options, more flexibility, more design. Over the next 30 years we want to see NZ furniture design celebrated on the world stage, ethically, sustainably and joyfully.

Crestline; look forward to Monday mornings.
