

BUD LAPTOP TABLE

Crestline™

A simple yet versatile sidekick.

**Designer: Alexander Wasney -
Designer/Director at Designwell**

Bud is a simple and versatile table designed as a handy sidekick to accompany soft seating and armchairs. Bud tables are ideal for perching a cup of coffee, a laptop, or as a handy writing surface.

The inspiration for Bud came from observing native Kahikatea trees and the way they shed their lower branches to produce long, straight trunks and beautiful buttress roots that stem and support the tree. The Bud base is made from one tube that splits into three in an efficient and playful way.

**Best Design Awards
Finalist 2023**

The Bud Story

Bud laptop table was created to fulfil a need for a versatile and customisable sidekick for flexible workspaces. It was designed to be easily maneuvered over a user's lap, sturdy enough for public use, and comfortably used for light laptop work.

The future of work is inevitably more flexible, meaning workplaces need to provide quality, adaptable spaces for employees to work where and when they can do their

best work. The beauty of the Bud side table is that it can transform any soft seating setting into a breakout workpoint by providing an ergonomic surface to work from.

The design features a slim foot design that allows it to slip under furniture easily, and the intentionally off-centred stem allows the user to position the Bud as close as possible to ensure a comfortable posture when working.

Designed and manufactured in New Zealand. 100% recyclable.

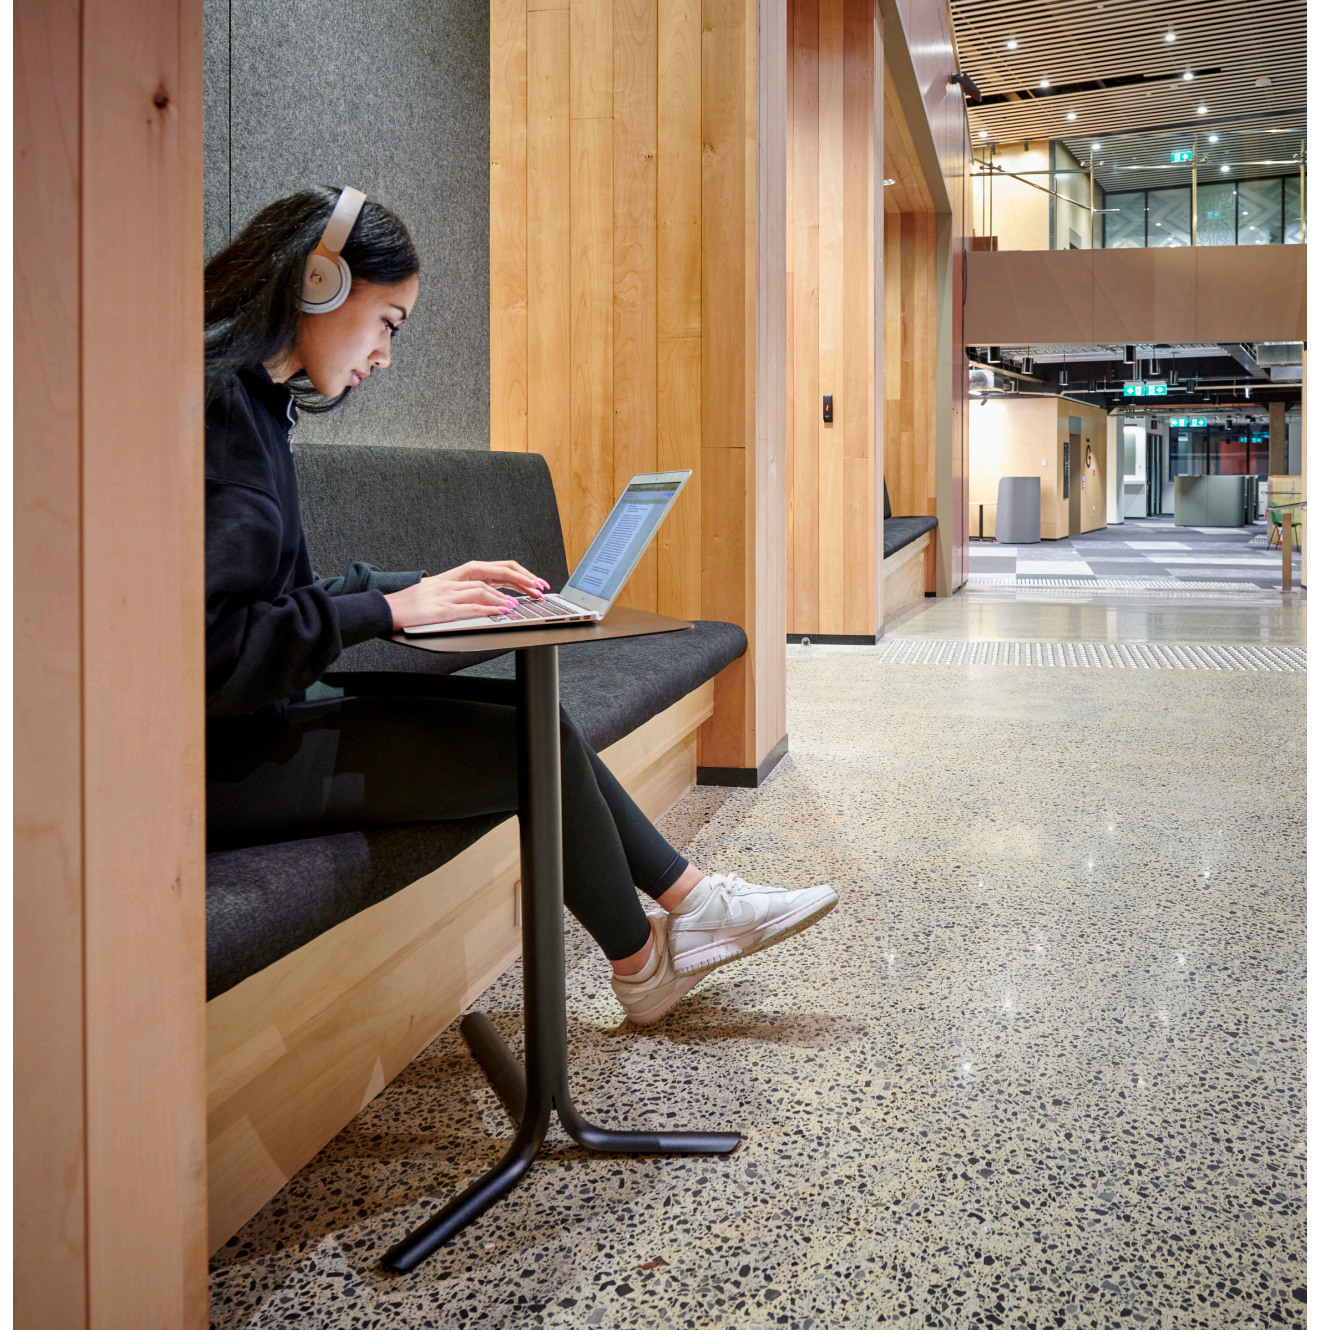

Bud aesthetically compliments a range of furniture and interior settings with its ability to easily adapt through colour and finishes, and its simple and timeless personality.

Bud is customisable and is available on a short lead time to fit with any interior scheme, and a diverse range of sectors, including workplace, hospitality, education and civic spaces.

Black, White, Pioneer Red, Denim Blue, Mist Green, or
Permanent Green (custom colours available by request)

Made In:

New Zealand

Lead Time:

2-4 weeks

Workspaces so good you'll look forward to Monday mornings.

The relationships people have with the office is fundamentally changing. How, where and when people work is no longer uniform. Nor are our solutions. We believe in the power of creating engaging spaces and furniture, so inspired and productive teams look forward to coming to work on Monday mornings.

For over 30 years Crestline has been helping design office spaces for companies who want more. More options, more flexibility, more design. Over the next 30 years we want to see NZ furniture design celebrated on the world stage, ethically, sustainably and joyfully.

Crestline; look forward to Monday mornings.
